Efteling Grand Hotel | Interior design

Archetype team - 16/10/2026

Heinzel De Vries, the Amsterdam-based interior architecture studio, was commissioned to design the interiors of the newly opened Efteling Grand Hotel - a luxurious hospitality destination nestled within one of Europe’s most beloved theme parks. The project encompasses all guest rooms, hospitality spaces, wellness areas, and retail zones, translating Efteling’s signature magic into a surreal, whimsical, and immersive hotel experience.
